Memo: 1

No: 3992 of 11-10-77
870

notes

From the Secretary to G.O.W Irrigation Branch. forwarding the Correspondence between him and the Commissioner of Ashtagram Division regarding the imposition of wet rates on Swamanya Inamdars of Manchinelu &c. holding lands under Mandagere Channel of Hemavati Division Alur Koppa Taluk Hassan District

---

The Original papers received from the Irrigation Deptt have been taken back by that Deptt from the General Records on the 5th Nov/77.
/Please see the pencil note on the 7th Docket No: 3992/870 Dy 11/10/77 of the Subl Engineers memo Dy 11/10/77 in the file).

No: 711 of 13/12/76
4060

1 In a petition ~~dated~~ presented to the Under Secretary Irrigation Branch by the Ryots of the Inam village Manchinelu they requested to be allowed to take water from the Mandagere Channel and to pay Kuudayam

2 The above Petition was referred to the Commissioner of Ashtagram division who was requested to ascertain & report whether arrangements can be made with the Inamdar which would allow of the lands of the said village being Irrigated.

The

3. The ryots presented another petition to the Executive Engineer, who stated that the ryots appeared quite willing to pay the additional rates to Govt. direct. This petition was also referred to the Commissioner. No 193 of 22/3/77 / 1010

4 The Commissioner submitted copy of the letter No: 968 of 22nd September/77 from the Dy: Commr. of Hassan district and the depositions taken from Inamdars, and stated that the Inamdars agreed to pay a Contribution of Rs: 10-0-0 per Kandy towards the extention of the Channel through their villages, but were unwilling to pay Kandayem at Rs: 4-0-0 per acre No 111 of 24th Septr/77

Purport of the Kyfiets.

5- The +Vrithdars of Surnama = 1 Lakshmee Pandit
= mya villages of Alambady and 2 Varthaman Pandit
Machavelu deposed, on day 12th 3 Jagatpal Pandit
1877, that they were willing to 4 Santa Pandit
use the water and pay the
Kandayem at Rs. 4-0-0 per acre
for wet lands cultivated under
the

the Mandagere Channel for the
Current year, and that the ryots
being only tenants under them,
they should not have addressed
the Government direct.

6 Again on 8th August 1877,
they deposed that the Channel
was carried through their inam
lands and not through Govt
lands, and that the subject of
payment of Kandayem was not
mooted at the time the extension
was proposed but that they were
asked to pay a contribution only.
that when they first deposed
they were under the impression
that Kandayem was asked for
only one year instead of the
contribution they formerly
agreed to pay. ~~Under these~~ On a fre-
~~Consideration~~ ~~Circumstances~~ they offered to
pay contribution and not
Kandayem every year & requested
to be allowed to use the Channel water.

7. One of the Vrithidars, Dod=
=damane Gundu Joisa deposed on
10th July 1877, that he agreed
to pay contribution only at Rs.
10/-

10 - - - 4 par Candy, but if the Govt. wanted Kandayam he was willing to pay if the following Concessions be allowed.

1st. That he be allowed to cultivate waste land not in= =cluded hitherto in the Puttahs of the Ryots.

2nd. That he be empowered to collect Kandayam from the Ryots on their lands according to the present measurement and not on the area entered in their Puttahs.

3rd. That he be allowed to recover additional Raja on the lands of the Ryots, besides the Kandayam fixed by Govt., on account of the cost of Yalakdars or to get Wara from the Ryots, he paying the Kandayam to Government.

If the Govt. be not pleased to grant him the above Con= =cession he was willing to pay the whole cost of Extending the Channel within the limits of his villages, and to pay the annual Dirwarthi every year,

but

but not Standayson

8 The lands
in question being
now assessed with
dry rates I think
it is nothing but
fair that, when
these Lands are
converted into wet
fields by means
of the Channel water
they should be
subjected to pay
rent of the water
rate at 1/- 4 per
acre — This case
is somewhat analogous
to that decided
in Ch. proceedings
No 4529 of 8th Dec/75

9. No contribution
can ~~it~~ thereby be accepted
from the Inamdar
in this case as
the rules relating
to Contribution (Vide
Sec Cir Jrs No 645
dy 25 April 1874)
apply to repairs
& restoration of Tanks.

10 In addition to
water rate, it
will be necessary
to levy 8 as a
Kunda towards
the cost of the
annual repairs
of the Channel
Vide Cir Jrs No 303
dy 25 June 76.

11. The only question
is whether the

Inundations shd be
allowed to demand
water from the
upts when. there
lands are cultd
into wet fields is
be allowed & such
as heretofore
and the fixed rent.
while the fact is
accepted of the
imposition of addl.
assessment, it is
nothing but fair
that the Inundation
should also derive
some additional
benefit - The Inundation
may [illegible] water
I think be allowed
to reduce the rent
in proportion to
the additional benefit

except accounts
of the mist &
the existence of
the channel and
the connexion of
the dry land
with it.

R. Thurnbull

23 Oct 77

12. The foregoing orders were communicated to the Comr of the Ashtagram Division in this Office Pro: No 7066/21 Dy 31st Oct/77.

13. In reply, the Comr now submits the marginally noted communication with Copy of Letter No 2 D 2nd October/78 from the Dy Comr of the Hassan Distt to whom the Ch. Comr's orders were referred for report.

× Letter No 524/148 Dy 14/10/78

14. In his letter above referred to, the Dy Comr states that, with reference to the first point mentioned in the Ch. Comr's order quoted in para 12 above, Viz, whether the object of the extension of the Mandigere channel is to reach Govt. lands lying beyond the Imam Village &c, it is not quite clear to him which Imam village is meant but he supposes it to be Machevalalu on the following grounds:—

I can see point of the matter. CJ

(1) Mr Rigg in his Memo on the proposed extension of this Channel says that till

till suitable arrangements can be made with the Inamdars of Alambody &c, lying beyond the 28th mile, it will be undesirable to consider the question of extending the Channel beyond the 27½ mile.

(2) In the Comrs reply to the Superintending Engineers' letter ~~No~~ 2754 Dy 20/9/75 asking for his opinion as to the advisability of going on with the Estimate and also as to what point the extension should be provided for, he says that "the project now submitted "appears promising and "well worth execution"- This refers to the extension up to the 28th mile only, as is also clearly stated in another part of his letter where he says that further consideration &c, seem necessary before the extension up to the 40th mile should be undertaken owing to Inam lands intervening.

Letter ~~No~~ 374 Dy 29/3/76.

(3). The subsequent correspondence marginally noted also refers to the Inamdars of Machevalabo as being the obstructing parties and this is further borne out by the Ch. Comr who refused in

× From Commissioner
~~No~~. 1057 of 18.12.76
" 1384 of Feb/ 77
" 119 of 8.5.77
To Commissioner
No. 44 of 11.4.77
" 968 of 22.9.77

in his proceedings above referred to, to listen to the Machevalalo Inamdars' offer to pay a lump sum towards the construction of the Channel -

15. Under these circumstances the Dy Comr treats the present reference as merely alluding to the extension of the Channel from the Maddirgondi Tank to the 28th mile.

16. The Dy Comr proceeds to state that the 1st village met is Wadergudi (Govt. Village), then comes the Inam Village of Machevalalo and from that village to the termination of the proposed extension to the 28th mile, all the land that will be irrigated is Govt. land lying in the villages of Singanahally, Jambally, Poojakopal and in an Amrut Mahal Kaval which land the department has agreed to give up for a grant of land in the Narsipur Taluq.

17. The Dy Comr further states that the Channel has been more or less excavated as far as Poojakopal on the 27½ mile and that the Channel Deptt have issued notice to the landholders of Singanahally which is on the 23rd mile that

The Negociations to be made must be subject to deposition Lawful by the Govt

that water will be supplied to them next season. It is thus clear that the object of the extension is to get to Govt. villages lying beyond Machevalaloo.

18. With reference to the 2nd point mooted in the Ch. Comr's proceedings as to whether a water rate of Rs 4 per acre is a fair and reasonable average rate to fix, the Dy Comr states that of the 5 Inamdars of Machevalaloo, 2 have agreed to the rate, but the other 3 object on the following grounds:—

(1) The Ryots will not pay them (Inamdars) more than 12 Rs per Kandy (wet), so that deducting Rs 9.½, which they have to pay to Govt, they will only get Rs 2½ from which also must be deducted extra payments to the servants for collecting the extra assessment.

(2) They anticipate the imposition of a quit rent by the Inam Department

On these grounds, they say that Rs 4 is too high.

19. The Amildar and others who were consulted on the matter hold that Rs 4 is too high, but in the Dy Comr's opinion, it is not

The Inamdars must [illegible] Committee [illegible] demand on the Ryots [illegible] Assistant [illegible] Supply [illegible] this water rate [illegible] Govt [illegible] to assess up [illegible] Inamdars [illegible] the extra charge [illegible] Govt [illegible]

not too high, for, he thinks that, as the Inamdars admitted, the patch of land to be irrigated and which now yields them above Rs 100 under dry cultivation would, under wet-cultivation, give them a clear profit of 50 per cent. The objectors, however, suggest Rs 2 per acre. The Ryots of the villages, he says, are very keen about using the water.

20. After recapitulating the several points noticed by the Dy Commr in regard to the proposed water rate (4 Rs per acre), the Commr agrees with him in thinking that it is fair and reasonable.

21. I think that as supported by the Comr the rate may be fixed at Rs 4 per acre. Submit for orders.

11/11/78

Let the rate of Rs 4 per acre as proposed be fixed.

13/11

Submitting Opinion in connection with the proposed rate of rate of 4th per acre on the Avaram lands which will be irrigated by the proposed Extension of the Mundpare channel in the Attikuppah Tolluk.

To Duplicate with enclosures.

16-10-78

No. 524
R. 1483

Attached Commissioner's Office
Mysore 4th October 1878.

To
The Secretary to the
Chief Commissioner of
Mysore.

Sir.

As directed in the Chief Commissioner's Proceedings No: 7066 dated 31st October 1877, I have the honor to forward herewith Copy of letter No: 2 dated 2d instant from the Deputy Commissioner Hassan reporting the result of his enquiry in connection with the proposed water rate of 4 Rupees per acre on the Inam lands which will be irrigated by the proposed Extension of the Mandigery Channel in the Altikuppa Taluk.

2. By carrying out the proposed Extension of the Channel some Inam lands will be brought under irrigation, but the greater part consist of ~~Govt~~ lands by the conversion of which the revenue will be increased.

Of the 5 Inamdars of Machivalalos ~~e~~ two are stated to have agreed to the proposed rate of Rs 4 per acre, whilst the remaining three consider that it is too high and should be

reduced

reduced to Rs 2 on the ground that the
Ryots cultivate under them will not
pay them more than 12 Rupees per candy
& that deducting the amount payable
to government nearly Rs 9 1/2 at an
uniform rate of Rs 4 per acre, only
a small balance of Rs 2 1/2 will remain
to cover the extra pay to Servants for
collecting the Assessment &c & the
quit rent which will be imposed
at the time of the Inam Settlement.
There is however no doubt that on the
Conversion into wet cultivation
of the lands now under dry cultivation
the revenue at present obtained by the
Inamdars at dry rates of Assessment
will considerably be increased, and
the proposed rate of Rupees 4 per acre
is not too high under the circumstances.

I have the honor to be
Sir
Your Most Obedient Servt
Inam
Commissioner
Ashtapram Dy

Camp No: 2.

Hassan District
Deputy Commissioner's Office
Camp Kikkeri 2 Oct/78

To

The Commissioner
Ashtagram Division

Sir

I have the honor to submit the following report on the points mentioned in the Chief Commissioner's Proceedings No: 7066/21 dated 31st Oct: 1877.

The 1st point on which the Chief Commissioner calls for information is as to whether the object to the Extension of the Mandigere Channel is to reach Government lands lying beyond the Inam Village; if there are no such lands it will be necessary that the work be deferred till the Inamdars agree to the terms imposed

I regret to state that it is not quite clear to me which Inam Village is meant, but I presume that Machevalalou is referred to.

The following are my reasons for presuming Machevalalou is referred to.

Mr Riff in his memo on the

13

the proposed Extension of the Channel
Says, in para 6 that till Suitable
Arrangements can be made with the
Inamdars of Alamboday &c lying beyond
the 28th Mile it will be undesirable to
Consider the question of extending the
Channel beyond the 27 1/2 Mile.

But the Superintending
Engineer in his letter No: 2754 dated
20th September 1875 in forwarding you
a copy of Mr Riggs Memo requests
that you will give your opinion as to
the advisability of going on with the
Estimate, and also as to what point
the Extension should be provided for.

Your reply to the above
was communicated in letter No: 374
of 29th March 1876 in which you say
that " the project now Submitted appears
promising and well worth Execution."

It is plain from your letter
that you refer to the Extension up to the
28th Mile only as in para 10, you say that
further Consideration &c seem necessary
before the Extension up to the 40th Mile
should be undertaken owing to Inam
lands intervening

The Subsequent Correspondence
marginally noted also refers to the
Inamdars of Machivalaloo as being
the obstructing parties and this is
further borne out by the Chief Commr

× From Commr
No: 1057 of 18-12-76
" 1384 of 7th Feby 1877
" 119 of 8th March 1877
To Commr
No: 44 of 11-4-77
No: 968 of 22-9-77

refused in his proceedings above referred to, to listen to the Machival alos, Inamdars offer to pay a lump sum towards the construction of the Channel, which proposal of theirs was communicated to you in this Office letter No: 968 of 22d September 1877.

I therefore treat the present reference as merely referring the Extension of the Channel from the Maddumgoodi Taluk to the 28th mile.

The 1st village met is Waddumgudi (Govt village), then comes the Inam village of Machival alos and from that village to the termination of the proposed Extension to the 28th mile all the land that will be irrigated is Govmt land lying in the villages of Singanahalli, Jambalki, Poopakopal and in an Amrut Mahal Kaval, which land the Department has agreed to give up for a grant of land in the Narsipur Taluk.

The Channel has been more or less Excavated as far as Poopakopal on the 29th mile, and I am informed that the Channel Department, have issued notice to the land holders of Singanahalli

which is on the 23d mile that water will be distributed to them next season. It is thus clear that the object of the Extension is to get to Government villages lying beyond Machivalalos

With reference to the 2d point mooted in the Chief Commissr's Proceedings as to whether a water rate of Rupees 4 per acre is a fair and reasonable average rate to fix I have the honor to state that of the 5 Inamdars of Machivalalu 2 have agreed to the rate, but the other three object.

Their principal grounds for objecting are that the ryots will not pay them more than 12 Rupees per candy (wet) so that deducting Rupees 9 1/2, which they will have to pay to Government they will only get Rs 2 1/2 from which also must be deducted Extra payments to the Servants for collecting the extra assessment.

Another objection of theirs is that they anticipate the imposition of a Quit rent by the Inam Settlement. So that they say Rupees 4 is too high.

I have discussed the matter with the Amildar one of the Inamdars (one of those who have agreed) and the agent and they all hold that

46

that Rupees 4 is too high, but as the Inamdars admitted that the patch of land to be irrigated and which now yields them above Rupees 100 under dry cultivation would under wet cultivation give them a clear profit of 50 per cent. I fail to see how the rate proposed can be held as too high.

They however suggest Rs 2 per acre. The ryots of the villages are very keen about using the water.

I have &c.

Chief Commissioner's Proceedings No. 7066 dated the 3 October 1877 in regard to the imposition of wet rates on the Inam lands under the Mandag Channel in the Attiosspa Talu

Read also:

Letter No. 524/148 dated the 14 October 1878, from the Commissioner of the Ashtagram Division, and its enclosures.

Order thereon:

The Chief Commissioner considers that in this, as in other cases where water is supplied to lands in Inam Villages by irrigation Channels constructed by the Government, an uniform rate of Re. 4 per acre should be levied, and directs that the Inamdars at Machivalalu be informed of these terms, which will of course not include

the cost of constructing the permanent Sluices.

2. This Case will however, be subject to such revision as may be found necessary hereafter, on the advent of the Survey Settlement, and the apportionment of the water rate on channel irrigated lands.

3. With regard to the objection urged to the payment of the rate by some of the Inamdars in the present case, the Chief Commissioner observes that there is no reason why the Inamdars, though responsible for the payment, should not require their Ryots to contribute towards it, in proportion to the benefits that they will derive

4. The exchange of land with the Amrut-Mahal Department proposed by the Deputy Commissioner should be

Letter No. 524—148, dated the 14th October 1878, from the Commissioner of the Ashtagram Division, and its enclosures.

No. 7005—75, DATED BANGALORE, 23RD NOVEMBER 1878.

ORDER THEREON.—The Chief Commissioner considers that in this, as in other cases where water is supplied to lands in inam villages by irrigation channels constructed by the Government, an uniform rate of Rs. 4 per acre should be levied, and directs that the inamdars at Machivalalu be informed of these terms, which will of course not include the cost of constructing the permanent sluices.

2. This cess will, however, be subject to such revision as may be found necessary hereafter on the advent of the Survey Settlement, and the apportionment of the water rate on channel irrigated lands.

3. With regard to the objection urged to the payment of the rate by some of the inamdars in the present case, the Chief Commissioner observes that there is no reason why the inamdars, though responsible for the payment, should not require their ryots to contribute towards it, in proportion to the benefits that they will derive.

4. The exchange of land with the Amrut Mahal Department proposed by the Deputy Commissioner should be reported for the orders of the Chief Commissioner.

reason that the extension of the Nullah in question was, in no way, beneficial to them - but were told in reply that they could, some way or other, derive more benefit from their lands by payt of the Govt dues demanded of them; informing them also, at the same time, that a reduced rate of water cess would be allowed to them on "Shranja" (progressive rental) for some years to come - Meeta begs to say that after the completion of Shranja, the permanent annual item payable by them to Govt would almost exceed 3/4th of the realizations of their village; thereby depriving the Mirasidars of the liberty & profit enjoyed by the Inamdars of Dodi & Kayemgutta villages - Meeta requests that therefore such reduction in the water rate, as would benefit the Mirasidars, (the owners of lands) may be granted to them in proportion to the profit the Govt has gained by supplying their lands with water - 2ndly the Meeta asks that either the cost of the Nullah within the limits of the Inam village be recovered by Govt in some reduction in the rate of water cess, be allowed them - Lastly the Meeta requests that as the condaigam, of the kind, is levied by Govt from the Inamdars, the Mirasidars also are the rightful claimants of the land may, in like manner, be allowed to recover from their subtenants rents some grain or condaigam annexed to their income -
